1. CORPORATE INFORMATION

HighGold Mining Inc. (the “Company”) is registered under the British Columbia Business Corporations Act and trades on the TSX Venture Exchange (TSXV: HIGH). The Company also trades under the symbol HGGOF on the US Over-the-Counter market. The Company is in the business of acquiring, exploring and developing mineral properties in Alaska, USA, and elsewhere.

The address of the Company’s corporate office and its principal place of business is 405 – 375 Water Street, Vancouver, BC, V6B 5C6.

The Company’s ability to fund ongoing operations and exploration is affected by the availability of financing. Due to market uncertainty the Company may be restricted in its ability to raise additional funding.

The impact of these factors on the Company over the past year was not materially significant, however, they may have a material impact on the Company's financial position, results of operations and cash flows in future periods. In particular, there may be heightened risk of going concern uncertainty.

As the Company does not have production activities, its capacity to fund ongoing exploration is affected by the availability of equity financing on terms which are acceptable to it. The ability of the Company to realize the carrying values of its deferred property costs will also depend on its ability to develop an economically feasible project or projects and to ultimately achieve commercial production on that basis, or to profitably dispose of such interests to other parties.

The mineral exploration sector in general involves significant levels of inherent business risk and is subject to multiple variables which are not controllable by the Company, such as commodity prices and matters related to land access and use. The impact of these factors on the Company is not yet determinable; however, they may have a material impact on the Company's financial position, results of operations and cash flows in future periods. In particular, there may be heightened risk of mineral property impairment and going concern uncertainty.

2. BASIS OF PREPARATION**a) Statement of compliance**

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. These condensed consolidated interim financial statements should be read in conjunction with the Company’s audited consolidated financial statements for the year ended December 31, 2022, which have been prepared in accordance with IFRS issued by the IASB.

The accounting policies applied in these condensed consolidated interim financial statements are based on IFRS issued as at November 22, 2023, the date the Board of Directors of the Company approved these financial statements. They are consistent with the policies applied to the preparation of the annual financial statements and are disclosed in detail therein.

FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2023 AND 2022**

(Expressed in Canadian dollars)
(Unaudited)

b) Basis of consolidation

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, JT Mining, Inc. ("JT Mining"). The Company's previously wholly-owned subsidiary, Epica Gold Inc. ("Epica"), ceased to be a wholly-owned subsidiary upon completion of the plan of arrangement with Onyx Gold Corp. ("Onyx Gold") effective on June 6, 2023 (Note 12). Inter-company balances and transactions are eliminated on consolidation.

c) Basis of measurement

These consolidated financial statements have been prepared on a historical cost basis except for financial instruments classified as financial instruments at fair value through profit or loss, which are stated at their fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

These consolidated financial statements are presented in Canadian dollars, which is also the Company's functional currency. The functional currency of JT Mining is also the Canadian dollar.

d) Judgments and estimates

The preparation of these consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, revenues and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances and which form the basis of making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and further periods if the revision affects both current and future periods.

- Significant areas requiring the use of estimates relate to the determination of impairment of exploration and evaluation properties, determination of the inputs to the Black Scholes option pricing model, the determination of the incremental borrowing rate used in the measurement of the lease liability, and any required provisions for closure and reclamation.
- Judgment was also involved in the determination that the Company and its wholly-owned subsidiary shared a common functional currency.

e) Accounting Standards Adopted, or Issued but not yet Effective

The Company adopted no material new accounting standards during the current fiscal year, and is unaware of any applicable, but not-yet-adopted standards that are expected to materially affect the financial statements of future periods.

3. MARKETABLE SECURITIES

During the nine months ended September 30, 2023, the Company sold 100,000 (2022 – Nil) shares of Fireweed Zinc Ltd. for proceeds of \$139,940 resulting in a gain of \$48,627 (2022 - \$Nil).

During the nine months ended September 30, 2023, the Company received 5,000,000 shares of Onyx Gold related to the plan of arrangement with Onyx Gold (Note 12). A 4,500,000 share portion of the Onyx Gold shares are held under an escrow agreement, for release at the rate of 750,000 shares every six months over the next 36 months. As at September 30, 2023, the fair value of the 5,000,000 (December 31, 2022 – Nil) shares was \$2,500,000 (December 31, 2022 - \$Nil) resulting in an unrealized gain of \$2,500,000 (2022 – \$Nil) for the nine months ended September 30, 2023.

a) Johnson Tract Property, Alaska

The Company has an agreement (“Agreement”) with Cook Inlet Region, Inc. (“CIRI”) for the lease rights to the 20,942 acre Johnson Tract property located 200 kilometers southwest of Anchorage, in Southcentral Alaska. Commercial terms outlined in the Agreement provide for an initial 10-year lease (the “Initial Term”) with a renewal option. During the Initial Term the Company is required to make a cash payment of US\$50,000 due on signing of the Agreement (paid), incur US\$10 million in expenditures (incurred) and make annual lease payments of US\$75,000 for years one through five, escalating to US\$150,000 from year six onwards. Upon completing such expenditure requirements and satisfying other lease conditions, the Company may renew the lease for an additional 5 years (11 through 15) by making annual lease payments of US\$150,000 per year (inflation adjusted) and incurring an additional US\$10 million in expenditures. The lease rights are subject to certain back-in rights by CIRI, pursuant to which, upon a construction decision CIRI has the one-time option to acquire up to a 25% participating interest in the project. Upon exercise of the back-in, a joint venture would be formed for the development, construction and operation of a mine on the property in which the Company and CIRI would each contribute pro-rata to any such expenditures. No cash payments are required for CIRI to exercise its option. The one-time right is exercisable upon completion of a feasibility study and a decision to construct a mine. The Agreement also includes net smelter return (“NSR”) royalties payable to CIRI of 2-3% on the base metals and a gold NSR ranging from 2.5% to 4.0%, depending on the price of gold at the time.

b) Spin-out of Canadian Mineral Properties

On June 6, 2023, the Company completed a spin-out of its Canadian gold property assets (the “Gold Projects”) into Onyx Gold and in exchange shares of Onyx Gold were distributed to the Company and to the Company’s shareholders on a basis proportionate to their shareholdings of the Company.

The following Gold Projects were spun-out as of June 6, 2023 and no longer form part of the Company’s assets (Note 12):

- Munro-Croesus Property
- Golden Mile Property
- Timmins South Property
- Yukon, Canada Property

On August 8, 2023, the Company issued a total of 80,000 common shares valued at \$36,800, as part of the final payment on the purchase of 255 mining claims which were part of the Company’s formerly owned Timmins South mining claims (Note 7).

6. LEASE LIABILITY

As at August 1, 2022, the Company was the sublessee to a premise. The incremental rate of borrowing for this lease was estimated by management to be 12% per annum.

Minimum lease payments in respect of lease liabilities and the effect of discounting are as follows:

Undiscounted minimum lease payments		
Less than one year	\$	70,358
Two to three years		23,452
		<u>93,810</u>
Effect of discounting		(6,654)

7. SHARE CAPITAL
Authorized

The Company has authorized share capital of an unlimited number of common shares and preferred shares without par value. Disclosures on any shares issued are provided in the Statements of Changes in Shareholders' Equity. Common and/or preferred shareholders are entitled to receive dividends if and when declared by the Directors.

During the nine months ended September 30, 2023

On April 11, 2023, the Company completed a non-brokered private placement, consisting of 14,029,243 shares at a price of \$0.66 per share, for aggregate gross proceeds of \$9,259,300. In connection with the private placement, the Company paid finder's fees of \$28,263 in cash to qualified finders and paid other share issue costs of \$249,442.

On August 8, 2023, the Company issued a total of 80,000 common shares valued at \$36,800, as part of the final payment on the purchase of 255 mining claims which were part of the Company's formerly owned Timmins South mining claims (Note 5).

During the nine months ended September 30, 2023, an aggregate of 281,375 share purchase warrants of the Company were exercised resulting in the issuance of 281,375 common shares of the Company for total cash proceeds of \$126,619.

During the year ended December 31, 2022

On August 26, 2022, the Company issued 80,000 common shares valued at \$78,400 related to the acquisition of certain claims in the Timmins South property (Note 5).

On September 30, 2022, the Company issued a total of 220,000 common shares valued at \$147,400 related to the acquisition of certain claims in the Yukon property (Note 5).

On December 5, 2022, the Company issued 50,000 common shares valued at \$37,500 related to the acquisition of the Timmins South property (Note 5).

Stock Options

Under the Company's stock option plan, the maximum number of shares that may be reserved for issuance is limited to 10% of the issued and outstanding common shares of the Company at any time. Under the plan, the exercise price of an option may not be less than the discounted market price. The options may have a maximum term of 10 years and be vested at the discretion of the board of directors.

On April 5, 2022, the Company granted 1,057,500 stock options to certain directors, officers, employees and/or consultants of the Company with an exercise price of \$1.00 expiring in 5 years. A total of 352,500 stock options vest immediately and the remaining 705,000 stock options vest over 2 years. The fair value of these options was calculated to be \$0.74 per option.

During the nine months ended September 30, 2023, the Company recognized share-based compensation in administrative expenses and capitalized to exploration and evaluation assets in the amount of \$118,601 (2022 - \$521,083) and \$145,552 (2022 - \$376,712), respectively.

The Black-Scholes option pricing model requires the input of highly subjective assumptions. Changes in the subjective input assumptions can materially affect the fair value estimate, and therefore the existing models may not necessarily provide a single reliable measure of the fair value.

9. FINANCIAL INSTRUMENTS

Classification of financial instruments

As at September 30, 2023	Financial assets – FVTPL	Financial assets – amortized cost	Financial liabilities – amortized cost
	\$	\$	\$
Cash and cash equivalents	-	6,033,304	-
Amounts receivable	-	249,824	-
Marketable securities	3,073,000	-	-
Accounts payable and accrued liabilities	-	-	1,160,230

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities

Level 2 – Inputs other than quoted prices that are directly or indirectly observable for the asset or liability; and

Level 3 – Inputs that are not based on observable market data.

The fair value of the Company’s cash and cash equivalents, amounts receivable, accounts payable and accrued liabilities approximates the carrying amount due to the short-term nature of these instruments.

The Company’s marketable securities carried at fair value have been classified as Level 1 within the fair value hierarchy.

Management of Industry and Financial Risk

The Company is exposed to various risks in relation to financial instruments. The Company’s risk management is coordinated at its head office in Canada in close cooperation with the board of directors and focuses on actively securing the Company’s short to medium-term cash flows and raising finances for the Company’s capital expenditure program. The Company does not actively engage in the trading of financial assets for speculative purposes. The most significant financial risks to which the Company is exposed are described below.

a) Credit risk

Credit risk is the risk of loss associated with a counterparty’s inability to fulfil its payment obligations. The Company limits its exposure to credit loss for cash by placing its cash with high quality financial institutions and for trade receivables by performing standard credit checks. The credit risk for cash is considered negligible since the counterparties are reputable banks with high quality external credit ratings.

HIGHGOLD MINING INC.**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2023 AND 2022**

(Expressed in Canadian dollars)
(Unaudited)

b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations when they become due. The Company ensures, as far as reasonably possible, that it will have sufficient capital in order to meet short-term business requirements, after taking into account cash flows from operations and the Company's holdings of cash. As at September 30, 2023, the Company has working capital of \$8,696,240 (December 31, 2022 - \$8,284,288). There can be no assurance that the Company will be successful with generating and maintaining profitable operations or will be able to secure future debt or equity financing for its working capital and expansion activities.

c) Foreign exchange risk

The Company operates internationally and is exposed to foreign currency risk arising from currency exposures to Canadian dollars. The main currency to which the Company has an exposure is the U.S. dollar. The Company is exposed to currency risk to the extent of its cash and trade and other payables that are denominated in U.S. dollars. The Company does not hedge its exposure to fluctuations in the related foreign exchange rates.

Based on the Company's net US currency exposure as at September 30, 2023, and assuming all other variables remain constant, a 15% weakening or strengthening of the Canadian dollar against the US dollar would result in an increase/decrease of approximately \$55,000 in comprehensive income/loss for the period.

d) Interest Rate Risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The Company does not hold any assets or liabilities subject to variable interest rates, and as such, the Company is not exposed to significant interest rate risk.

e) Equity Price Risk

Equity price risk arises from market fluctuations in equity prices that could adversely affect the Company's operations. The Company's current exposure to equity price risk is limited to declines in the values and volumes including those of its own shares, which could impede its ability to raise additional funds when required and movements in individual equity prices or general movements in the level of the stock market. The Company closely monitors the individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company. As at September 30, 2023, the Company's marketable securities of \$3,073,000 are subject to fair value fluctuations.

Based on the Company's marketable securities as at September 30, 2023, and assuming all other variables remain constant, a 10% increase/decrease in the fair value of marketable securities would result in an increase/decrease of approximately \$307,000 in comprehensive income/loss for the period.

10. CAPITAL DISCLOSURES

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the development and expansion of its business and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk level.

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may attempt to issue new shares or debt, dispose of assets, or adjust the amount of cash and cash equivalents. There can be no assurance that the Company will be able to obtain debt or equity capital in the case of operating cash deficits.

In order to facilitate the management of its capital requirements, the Company prepares expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions. The Company does not pay out dividends in order to conserve cash reserves and to maximize ongoing exploration efforts. The Company's share capital is not subject to external restrictions. The Company has not paid or declared any dividends since the date of incorporation, nor are any contemplated in the foreseeable future.

The Company is not subject to externally imposed capital requirements except when the Company issues flow-through shares for which the amount should be used for exploration work. On December 5, 2019 and December 23, 2020, the Company completed flow-through private placements totalling \$2,304,000 and \$3,700,000, respectively. As of December 31, 2022, the Company incurred sufficient eligible expenditures to satisfy its flow-through spending obligations.

12. DISPOSITION OF ASSETS UPON SPINOUT

On June 6, 2023, the Company completed a spin-out of its Canadian gold property assets (the “Gold Projects”) into a new company, Onyx Gold Corp. (“Onyx Gold”) and in exchange shares of Onyx Gold were distributed to the Company and the Company’s shareholders.

The spin-out was conducted by way of a plan of arrangement (the “Arrangement”) under the British Columbia Business Corporations Act. Pursuant to the Arrangement, the Company received 5,000,000 Onyx Gold shares and the shareholders of the Company received an aggregate of 21,920,214 Onyx Gold shares, distributed on a basis of one Onyx Gold share for every four shares of the Company held.

The following net assets of the Gold Projects were spun-out as of June 6, 2023 and no longer form part of the Company’s net assets:

	\$
Cash and cash equivalents	50,618
Amounts receivable	118
Prepaid expenses	1,200
Munro-Croesus Property	12,701,408
Golden Mile Property	1,113,228
Timmins South Property	1,934,005
Yukon Land Position and Joint Venture	94,007
Accounts payable and accrued liabilities	(14,654)
	15,879,930

On the basis that an accurate and fair valuation of these properties, individually and in the aggregate, is not otherwise reasonably determinable, the Company has recorded these dispositions to Onyx Gold using the current deferred mineral property costs applicable to each. Accordingly, no gain or loss has been recognized herein.
